KRUSHISATHI™

Harvest with Trust

NUVIKA AGRI SOLUTIONS PRIVATE LIMITED

https://krushisathi.co.in

Krushi Sathi – Your Trusted Partner in Agriculture
Nuvika Agri Solutions Private Limited is an emerging agricultural solutions company committed to empowering farmers with quality products, scientific agricultural practices and reliable farm services.Under our brand “Krushi Sathi”, we aim to become a trusted companion for farmers by providing practical and result-oriented solutions throughout the crop cycle — from soil health and crop planning to crop protection, nutrition, farm management and better yield.Our approach combines agricultural knowledge, field experience and modern technology to understand the real challenges faced by farmers and provide solutions that are simple, effective and economically beneficial.

What We Do

- Soil Testing & Soil Health Management
- Agricultural Consultancy & Crop Advisory
- Seeds, Fertilizers & Crop Protection Solutions
- Bio-Fertilizers, Bio-Pesticides & Micro nutrients
- Crop Nutrition & Plant Growth Solutions
- Crop Diagnosis & Farm Management
- Farming Services & Technical Guidance
- Quality Agricultural & Food Products

Our Vision : To build a strong and trusted agricultural ecosystem where every farmer has access to the right knowledge, the right products and the right solutions at the right time.

Our Mission : To improve farmers' productivity and profitability through quality, innovation, scientific farming and trustworthy agricultural services, while promoting sustainable and responsible agriculture.

Why Krushi Sathi? Krushi Sathi is more than a brand — it is a commitment to farmers.We believe that agriculture grows when farmers receive the right guidance, genuine quality and continuous support. Through Krushi Sathi, we are working to bridge the gap between modern agricultural technology and practical farming needs.Krushi Sathi – Harvest With Trust

Krushi Sathi – Growing Trust, Growing Success.
Krushi Sathi – Your Trusted Partner in Agriculture.
Krushi Sathi – Empowering Farmers, Enriching Harvests.
Krushi Sathi – Trust That Grows with Every Harvest.

Benefits:

- Provides balanced nutrition for rapid crop growth.
- Increases root development and nutrient uptake.
- Improves flowering, fruit set and yield.
- Reduces nutrient deficiency symptoms.

Dosage :
2-3 ml per litre of water.
Fertigation :
1-2 liters per acre, depending on crop stage.

Crop Fuel NPK - 11.11.08+TE

Benefits:

- Rapid root development
- Boosts flowering & fruit initiation
- Enhances energy transfer and plant metabolism
- Improves stress tolerance
- Ideal for early growth & pre-flowering stages.

Drip Fertigation : 2–4 L/acre depending on crop stage. Apply during early growth, branching, pre-flowering.
Foliar Spray : 1.5–2 ml per litre of water Spray at vegetative + pre-flowering stages.

Crop Fuel NPK - 07:21:00

Benefits:

- Potassium Thiosulfate (00-00-25 + 17S) is a clear, neutral-to-slightly alkaline liquid fertilizer providing immediately available potassium and two-stage sulfur. Ideal for drip fertigation and foliar feeding in chloride-sensitive crops. To be used only as Fertilizer. Not for medicinal , household, or industrial purposes.

Recommended Crops : Fruits, Vegetables, Cotton, Sugarcane, Cereals, Pulses, Oilseeds, Ornamentals.
Foliar Spray : 2–3 ml per litre of water.
(Consult agricultural expert for exact dose as per soil and crop condition.)

Crop Fuel NPK - 00:00:25 17 S

Benefits:

- **Crop Fuel** is a suspension concentrate liquid micronutrient fertilizer containing a high concentration of zinc for use as a foliar feed of zinc to prevent and treat zinc deficiency on a wide range of crops. It is a zinc containing micronutrient fertilizer for use as a foliar feed to maintain or correct zinc levels in plants. The main function is to help the plant in chlorophyll synthesis.

- **Dosage per acre:** 250-300ml /acre **For Spray :** Mix 250-300 ml of Crop Fuel with 200 ltr water and spray evenly on crop.

Crop Fuel Zinc

Benefits:

- Prevents and corrects boron deficiency in crops.
- Promotes healthy plant growth and improves overall plant vigour.
- Enhances crop yield, fruit quality, and marketable produce.
- Suitable for a wide range of agricultural and horticultural crops.

- For best results please use Crop Fuel Boron@ 625-750 ml/Ha. **Mode of Application:** Crop Fuel Boron can be applied as foliar spray or as fertigation via drip.

Crop Fuel Boron

Benefits:

- Promotes strong cell wall development and sturdy plant structure.
- Enhances Fruit quality, Size and Shelf life.
- Improves pollen germination and seed setting.
- Prevents nutrient deficiency -related disorders such as blossom ent rot, Cracking and dieback.
- Increases overall yield and crop quality.

Drip Irrigation: 1–2 L per acre depending on crop stage and soil condition. Apply during active vegetative and reproductive growth stages for best results.(Do not mix with phosphatic or alkaline products.)

Crop Fuel CBZ : 21:0.1:1.5

Benefits:

- **Crop Fuel** Silicon activates the cation Exchange capacity which helps to improve translocation and assimilation of nutrients thereby improves overall plant health, yield and quality of harvest.
- **Crop Fuel** Silicon protects the plants from Abiotic stress Vigorous growth under drought, excess rainfall and Frost conditions.

Application : Soil application 500 l to 1 lit. per acre
Foliar Application : 1.5 - 2 ml per lit.

Crop Fuel OSA

Benefits:

- Flex Mix (Foliar Application for Alkaline Soil for Cotton Crop) Flex Mix is a ideal combination of micro nutrients like Fe, Zn & Boron.Flex Mix ensures balanced nutrition to plants ensuring their development for healthy crops and better yield.

Application : 2-3 ml/Lit of water and spray on foliage of crops ensuring proper coverage.
For Drip Irrigation 1-2 Lit per Acre.

Felx Mix

Benefits:

- **Flex Flower** (Foliar Application for Alkaline Soil for Cotton Crop)
- **Flex Flower** is a ideal combination of micro nutrients like Fe, Zn & Boron.
- **Flex Flower** ensures balanced nutrition to plants ensuring their development for healthy crops and better yield.

- **Application :** 2-3 ml/Lit of water and spray on foliage of crops ensuring proper coverage. For Drip Irrigation 1-2 Lit per Acre.

Flex Flower

Benefits:

- **Flex Grow Maha-Grade 11** (Foliar Application for Alkaline Soil for Cotton Crop)
- **Flex Grow** is a ideal combination of micro nutrients like Fe, Zn & Boron.
- **Flex Grow** ensures balanced nutrition to plants ensuring their development for healthy crops and better yield.

- **Application :** 2-3 ml/Lit of water and spray on foliage of crops ensuring proper coverage. For Drip Irrigation 1-2 Lit per Acre.

Flex Grow

Benefits:

- Zinc EDTA 12% is essential for the transformations of carbohydrates. It regulates consumption of sugar. It is part of the enzyme system which regulate plant growth. It is associated with water uptake and water retantion in the plant.
- Dissolve 0.5 -1.0 gm per liter of water for foliar application. Depending on the severity of Zinc deficiency increase the dose. 500gm -1kg of Zinc EDTA 12% per acre per application for drip irrigation depending upon crop requirement.

Root Zen

Benefits:

- Corrects micronutrients deficiencies
- Improves flowering & fruit setting
- Enhances yield & crop quality
- Promotes better nutrient absorption

Application : Dissolve 0.5–1.0 g/L of water for foliar spray application. Increase dosage based on the severity of micro nutrient deficiency.

Nutri Spark

Benefits:

- Plant-based, eco-friendly formulation.
- Repels major sucking pests.
- Reduces pest feeding and infestation pressure.
- Supports plant immunity and vigor.
- Safe for beneficial insects when used as directed.
- Suitable for IPM and organic-oriented practices.

Method Of Application & Dosage :
Foliar Spray: 1.5-2 ml per litre of water.
Application Interval: 7–10 days or as required depending on crop stage

Defender Plus

Benefits:

- Natural & plant-based formulation.
- Repels sucking pests effectively.
- Reduces pest feeding & infestation pressure.
- Safe for beneficial insects when used as directed.
- Suitable for IPM & organic farming practices.
- Improves plant vigor & stress tolerance.

- **Method Of Application & Dosage : Foliar Spray:** 1-2 ml per litre of water. **Application Interval:** 7–10 days or as required depending on crop stage

Rakshak Plus

Benefits:

Silstick Silicon Spreader is Non ionic silicon based adjuvant. It promotes faster and more even soil penetration reducing water evaporation.
Silstick Silicon Spreader helps insecticides, defoliators and foliar fertilizers to penetrate surface of leaf faster and more evenly increasing activity of formulation.
Silstick Silicon Spreader provide excellent environment for leaves shoots and roots giving super spreading effect.

- Method Of Application & Dosage : 0.25 ml per liter of water.

Silstick
